First-aid measures after eye contact	: In case of contact, immediately flush eyes with plenty of water. Remove contact lenses, if worn. If irritation persists, get medical attention.
First-aid measures after ingestion	: If swallowed, do NOT induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. Get medical advice/attention if you feel unwell.
4.2. Most important symptoms and effects	s, both acute and delayed
Symptoms/injuries after inhalation	: May cause respiratory tract irritation. May cause drowsiness, dizziness and central nervous system depression.
Symptoms/injuries after skin contact	: May cause skin irritation. Symptoms may include redness, drying, defatting and cracking of the skin. May cause frostbite on contact with the liquid.
Symptoms/injuries after eye contact	: May cause eye irritation. Symptoms may include discomfort or pain, excess blinking and tear production, with possible redness and swelling. May cause frostbite on contact with the liquid.
Symptoms/injuries after ingestion	: Not a normal route of exposure.
4.3. Indication of any immediate medical a	attention and special treatment needed
Symptoms may not appear immediately. In case of a	ccident or if you feel unwell, seek medical advice immediately (show the label or SDS where possible).
SECTION 5: Firefighting measures	
5.1. Extinguishing media	
	: Water spray, water fog, dry chemical, alcohol resistant foam, carbon dioxide.
	: None known.
5.2. Special hazards arising from the subs	stance or mixture
	 Flammable gas. Products of combustion may include, and are not limited to: oxides of carbon, hydrofluoric acid, carbonyl fluoride.
Explosion hazard	 Heat may build pressure, rupturing closed containers, spreading fire and increasing risk of burns and injuries.
5.3. Advice for firefighters	
	: DO NOT fight fire when fire reaches explosives. Evacuate area. Vapors are heavier than air
	and may travel considerable distance to an ignition source and flash back to source of vapors. : Keep upwind of fire. Wear full fire fighting turn-out gear (full Bunker gear) and respiratory
Totection during menghting	protection (SCBA).
SECTION 6: Accidental release measu	Ires
6.1. Personal precautions, protective equi	pment and emergency procedures
General measures	: Use personal protection recommended in Section 8. Isolate the hazard area and deny entry to unnecessary and unprotected personnel. Eliminate sources of ignition.
6.2. Methods and material for containmen	t and cleaning up
For containment	: Ventilate the area thoroughly, especially low lying areas (basements, workpits etc).
Methods for cleaning up	: Leave the product to evaporate. Provide ventilation.
6.3. Reference to other sections	
See section 8 for further information on protective	clothing and equipment and section 13 for advice on waste disposal.
SECTION 7: Handling and storage	
7.1 Procautions for safe bandling	
7.1. Precautions for safe handling Additional hazards when processed	: Hazardous waste due to potential risk of explosion. Pressurized container: Do not pierce or burn, even after use. Keep away from sources of ignition - No smoking.
	burn, even after use. Keep away from sources of ignition - No smoking.
Additional hazards when processed	 burn, even after use. Keep away from sources of ignition - No smoking. Do not spray on an open flame or other ignition source. Avoid contact with skin and eyes.
